The essence of a unique stone

Drawn over the centuries from ore, volcanic ash and slate, the Belgian Ardennes stone is the source of inspiration for the collection.

Disegnata nel corso dei secoli da minerali, cenere vulcanica e ardesia, la pietra belga delle Ardenne è la fonte di ispirazione della collezione.

Façonnée au cours des siècles par des minéraux, de la cendre volcanique et de l'ardoise, la pierre belge des Ardenne est la source d'inspiration de la collection.

Das belgische Gestein der Ardennen, das im Laufe der Jahrhunderte aus Erzen, Vulkanasche und Schiefer gewonnen wurde, ist die Inspirationsquelle für die Kollektion.

Moldeada a lo largo de los siglos a partir de minerales, ceniza volcánica y pizarra, la piedra belga de las Ardenas es la fuente de inspiración de la colección.

Источником вдохновения для коллекции стал камень из бельгийских Арденн, который представляет собой вековые наслоения минералов, вулканического пепла и сланца.

Sensitech

Traditional anti-slip surface

The innovative Sensitech Surface

Sensitech is the high-tech surface for indoor and outdoor settings created by Atlas Concorde Laboratories. The surface combines high slip resistance performance with tactile softness. With Sensitech, the meaning of surface evolves and takes on a reassuring, pleasant and practical touch, making architectural spaces more comfortable and appealing.

Sensitech è la superficie ad alto coefficiente tecnologico per gli ambienti interni ed esterni realizzata dai Laboratori Atlas Concorde. La superficie coniuga elevate prestazioni di resistenza allo scivolamento ad una maggiore morbidezza tattile. Con Sensitech il significato di superficie si evolve e assume un tocco rassicurante, piacevole e pratico, rendendo gli spazi architettonici sempre più confortevoli e appaganti.

Velvetech

Velvetech is the new technology with an Italian patent inspired by the effect of sanding on the surface. Velvetech has silk-like reflections and a velvety soft hand. The naturalness of the surface is emphasised by areas of different opacity that contribute to the depth of the surface.

Velvetech è la nuova tecnologia con brevetto depositato in Italia ispirata all'effetto della levigatura sulla superficie. Velvetech si presenta con riflessi che ricordano la seta e una mano vellutata e morbida. La naturalezza della superficie è evidenziata da zone di diversa opacità che contribuiscono a dare profondità alla superficie.
