

MAPIERRE

EMIL
CERAMICA

**Il fascino di una pietra millenaria
impresso nell'architettura contemporanea.**

**The beauty of a timeless stone
incorporated in contemporary architecture.**

Terra di grandi vini ma non solo, la Borgogna è conosciuta in tutto il mondo per il suo patrimonio architettonico in cui spicca una finitura costruttiva di grande pregio: la pietra di Borgogna.

Una pietra di origine calcarea ricca di dettagli, sfumature, irregolarità. Il progetto nasce nel cuore di questa regione della Francia, da un'attenta selezione delle pietre più belle e rappresentative della Borgogna. Emilceramica la reinterpreta in gres porcellanato, in una collezione ceramica contemporanea in cui la sobria bellezza della pietra si sedimenta negli spazi, garantendo prestazioni tecniche d'avanguardia.

Not just a land of great wines, Burgundy is world famous for its architectural heritage, dominated by a particularly fine finishing stone: Pierre de Bourgogne. A limestone rich in details, shade variation and irregularities.

The project was originated in the heart of this region of France, through the meticulous selection of Burgundy's loveliest, most typical stones. Emilceramica reinterprets this material in porcelain stoneware, in a contemporary ceramics collection that sets the stone's understated beauty in new architectural spaces, guaranteeing state-of-the-art technical performances.

Tre anime
per una finitura progettuale unica.

A unique architectural finish
with three personalities.

ANCIENNE

Lo spirito più atavico della pietra vive nella finitura antica: una superficie dall'estetica intensa, ricca di dettagli, per spazi con un'eleganza avvolgente e intramontabile, che richiama i castelli francesi.

The stone's most ancient spirit lives on in this timeworn finish: a surface with an intense aesthetic, rich in details, for interiors with an eternal, irresistible elegance, evocative of French châteaux.

LIGNE

Una lavorazione rigata con un effetto tridimensionale, ideale per creare quinte e pareti sensoriali, capaci di affascinare vista e tatto ed esaltare il progetto architettonico.

A surface finished with three-dimensional lines, ideal for creating panels and walls that speak to the senses, delighting sight and touch to reinforce the architectural concept.

NOBLE

Una finitura ideata per creare pareti e rivestimenti dall'eleganza sobria e misurata, in cui gli elementi di arredo contemporanei trovano uno scenario perfetto.

A finish intended for the creation of walls and coverings with a discreet, measured elegance, providing the perfect backdrop for contemporary furnishings.

OPUS SPACCATELLA

Multi formato,
multi eleganza

Multi-size,
multi-elegance

La collezione MAPIERRE è progettata per creare pose modulari dal sapore senza tempo, come la posa Opus Spaccatella, composta da **2 formati 20x20 e 20x30 miscelati** e inscatolati insieme per ottenere una posa variegata, sofisticata ed estremamente naturale.

L'Opus Spacatella è ottenuto attraverso una lavorazione sul prodotto finito: **i bordi sono spezzati in modo irregolare, mai ripetitivo**, conferendo l'aspetto reale della pietra «spaccata».

Negli ambienti più moderni, i formati consentono di progettare spazi omogenei e raffinati, in cui **pavimenti e pareti si susseguono continui in perfetta armonia**.

The MAPIERRE collection is designed for the creation of modular installation patterns with a timeless flavour, such as Opus Spaccatella, comprising **2 sizes, 20x20 and 20x30, mixed and boxed together** for variegated, sophisticated, extremely natural layouts.

Opus Spaccatella is obtained by processing the finished product: **edges are given an irregular, never repetitive "broken" finish** to create the real look of split stone.

In more modern interiors, the sizes enable the design of refined, uniform spaces where the **floors and walls run seamlessly into one-another in perfect harmony**.

20MM

Estetica e Prestazioni

High-Performing Good Looks

Mapierre 20mm assicura l'equilibrio ideale tra ricercatezza estetica e prestazioni tecniche elevate nelle più svariate ambientazioni esterne. Alla possibilità di realizzare percorsi, camminamenti e altre soluzioni progettuali outdoor in piena armonia con l'ambiente circostante e in assoluta continuità con gli spazi interni, si aggiunge la garanzia di impiego di un materiale eccezionalmente resistente ai carichi e a tutti i tipi di agenti atmosferici.

Facile da posare a secco su erba, sabbia e ghiaia, Mapierre 20mm può essere incollato anche su massetto, permettendo di realizzare pavimentazioni carrabili o altre soluzioni nell'ambito di spazi commerciali e pubblici soggetti a elevato traffico e si presta alla perfezione alla realizzazione di pavimenti sopraelevati. Mapierre 20mm è la soluzione ideale per progettare con stile, senza rinunciare alle esigenze tecniche richieste dall'architettura contemporanea.

Mapierre 20mm delivers the ideal combination of exquisite appearance and outstanding technical performances in the most widely varying outdoor locations. Paths, pavements and other outdoor solutions that merge perfectly into the surrounding environment and seamlessly continue indoor design schemes can be created with a material offering exceptional resistance to loads, weather and other atmospheric factors. Easily installed dry on grass, sand and gravel, Mapierre 20mm can also be glued to concrete screeds for vehicularresistant pavings, or for other projects in commercial or public contexts with heavy traffic, and is perfect for raised floors. Mapierre 20mm enables stylish design solutions while meeting all the technical demands of contemporary architecture.

ESTHÉTIQUE ET PERFORMANCE
Mapierre 20mm instaure l'équilibre idéal entre raffinement esthétique et haute performance technique dans les contextes les plus disparates. Il est ainsi possible de réaliser des parcours, des cheminements et d'autres projets extérieurs en totale harmonie avec le milieu environnant et en continuité visuelle avec l'intérieur. De plus, la matière assure une résistance exceptionnelle aux charges et à tous les agents atmosphériques. Facile à poser à sec sur gazon, sur sable et sur gravier, Mapierre 20mm se colle aussi sur chape

pour composer des sols carrossables ou d'autres solutions dans les espaces commerciaux et publics exposés à trafic intense. Le produit convient également parfaitement à la mise en place de planchers surélevés. Mapierre 20mm est le nec plus ultra pour donner corps à des projets de classe, tout en remplissant les critères techniques de l'architecture contemporaine.

ÄSTHETIK UND LEISTUNGEN
Mapierre 20mm gewährleistet den perfekten Einklang zwischen ausgefeilter Ästhetik und hohen technischen Leistungen in verschiedensten Außenräumen. Die Möglichkeit zu Gestaltungslösungen für den Außenbereich wie etwa Fahr- und Gehwege, die sich harmonisch in die Umgebung einfügen und eine nahtlose optische Einheit mit den Innenräumen bilden, ist mit der Garantie eines außergewöhnlich belastungsfähigen und witterungsbeständigen Materials verbunden.

Leicht verlegbar im Gras-, Sand- oder Kiesbett, kann Mapierre 20mm auch auf Estrich verklebt werden. Die Kollektion eignet sich nicht nur für Bodenbeläge oder andere Lösungen in stark frequentierten gewerblichen und öffentlichen Bereichen, sondern ist auch zur Erstellen von Doppelböden perfekt. Mapierre 20mm ist die ideale Lösung für eine stilistische Gestaltung und erfüllt die technischen Anforderungen der modernen Architektur.

20MM

ЭФФЕКТНАЯ ЭСТЕТИКА И ВЫСОКИЕ ХАРАКТЕРИСТИКИ
Mapierre 20mm гарантирует достижение идеального равновесия между эстетической изысканностью и высокими техническими характеристиками в самых разнообразных наружных оформлениях. К возможности создания дорожек, тротуаров и других проектных решений для наружных пространств в полной гармонии с окружающей средой и с полной взаимоприменимостью с внутренними пространствами добавляется гарантия использования материала, который чрезвычайно устойчив к нагрузкам и всем типам атмосферного воздействия. Материал Mapierre 20mm легко укладывается в сухую на траву, песок и щебень, а также его можно наклеивать на бетонную стяжку, что позволяет изготавливать полы, пригодные для движения транспортных средств, или же другие решения на торговых и общественных объектах с высокой интенсивностью движения, а кроме того, он может великолепно использоваться для изготовления фальшполов. Mapierre 20mm - это наилучшее решение для проектирования с хорошим стилем, не отказываясь от технических необходимостей, которые востребованы современной архитектурой.
