

STONEWORK

A minimalist interior scene. On the left, a large, dark, textured wall panel is visible. In the foreground, a light-colored, polished floor surface is shown. To the right, there are several modern, black ceramic objects: a tall, slender vase on the left, a shorter, wider vessel in the center, and a green cylindrical object on a wire rack. The lighting is soft and directional, highlighting the textures of the stone and the smooth surfaces of the ceramics.

CERAMICHE
SUPERSGRES

Quando la pietra naturale incontra la perfezione della tecnologia ceramica, si trasforma in un materiale senza tempo, dove la materia diventa protagonista.

STONEWORK è una collezione di quattro diverse pietre riprodotte fedelmente nelle caratteristiche estetiche,
nelle sfumature cromatiche ed in ogni singolo dettaglio di colore e di struttura.

Ardesia nera, Quarzite bianca, Beola, Lugnez: pietre naturali con caratteristiche estetiche diverse con in comune raffinate colorazioni fredde, pietre perfette
per uno stile Nordico caratterizzato da un mix equilibrato di funzionalità e semplicità delle forme che conferisce agli ambienti un'eleganza raffinata.

When natural stone meets the perfection of ceramic technology and becomes a timeless material, where matter becomes the protagonist.

STONEWORK is a collection of four different stones faithfully reproduced in their aesthetical features,
chromatic shading and each single detail of color and texture.

Ardesia nera, Quarzite bianca, Beola, Lugnez: natural stones with different aesthetic characteristics but with shared fine
cold coloring, perfect stones for a Nordic style characterized by a balanced mix of functionality and simplicity
of shapes, that give the ambiance a refined elegant flair.

STONEWORK

Quand la pierre naturelle rencontre la perfection de la technologie céramique, elle se transforme en un matériau intemporel, où la matière devient protagoniste. STONEWORK est une collection de quatre pierres différentes fidèlement reproduites dans les caractéristiques esthétiques, dans les nuances chromatiques et dans chaque détail de couleur et de structure.

Ardesia nera, Quarzite bianca, Beola, Lugnez : des pierres naturelles avec des caractéristiques esthétiques différentes mais des couleurs froides raffinées en commun, des pierres parfaites pour un style Nordique caractérisé par un mix équilibré de fonctionnalité et simplicité des formes qui apporte aux espaces une élégance raffinée.

Wenn der Naturstein auf die Perfektion der Keramiktechnologie trifft, dann verwandelt sich dieser in ein zeitloses Material, das zum Protagonist wird. STONEWORK ist eine Kollektion von vier verschiedenen Steinen, deren ästhetische Eigenschaften, Farbnuancen und einzelne Details in der Farbe und der Struktur naturgetreu nachgebildet werden.

Ardesia nera, Quarzite bianca, Beola, Lugnez: Vier Natursteine mit unterschiedlichen ästhetischen Eigenschaften, aber von gleicher kühler farblicher Prägung, perfekte Steine für einen nordischen Stil, gekennzeichnet durch eine ausgewogene Mischung aus Funktionalität und Einfachheit der Form, die den Umgebungen eine raffinierte Eleganz verleihen.

La piedra natural encuentra la perfección de la tecnología cerámica transformándose en un material sin tiempo y la materia se convierte en protagonista. STONEWORK es una colección de cuatro piedras diferentes reproducidas fielmente en sus características estéticas, en sus matices cromáticos y en cada uno de los detalles de color y estructura.

Ardesia nera, Quarzite bianca, Beola, Lugnez: piedras naturales con características estéticas diferentes que comparten las refinadas tonalidades frías, piedras perfectas para un estilo nórdico caracterizado por una equilibrada mezcla de funcionalidad y esencialidad de las formas que confiere a los ambientes una elegancia refinada.

Когда красота природного камня сочетается с техническим совершенством керамики, рождается уникальный по эстетическим и эксплуатационным качествам материал. STONEWORK – это коллекция плитки, в которой с изумительной точностью воспроизведены мельчайшие детали рисунка, цветовые оттенки и текстуры четырех разных камней.

Ardesia nera, Quarzite bianca, Beola, Lugnez: общее у этих разных по рисунку каменных фактур – холодные цвета. А значит все они идеальны для элегантного украшения интерьеров в скандинавском стиле, которому свойственны гармоничная простота форм и функциональность.

Per dettagli sul prodotto in 20 mm di spessore e sui relativi sistemi di posa ed, in particolare, per le raccomandazioni, accorgimenti, limitazioni di utilizzo e precauzioni in fase di posa, si raccomanda di prendere visione dell'ultima versione del catalogo T20 e del sito www.supergres.com

For further details on the 20 mm product and the installation systems, in particular for recommendations , restrictions of use, and precautions during installation, please refer to www.supergres.com and to the latest release of T20 catalogue.

Per la posa del materiale rettificato si prescrive una fuga minima di 2 mm / As for rectified materials, a minimum joint of 2 mm is required / Pour la pose du matériau rectifié, il faut réaliser un joint minimum de 2 mm / Für die Verlegung des geschiffenen Materials ist eine Mindestfuge von 2 mm vorgeschrieben / Para la colocación de material rectificado la junta mínima obligatoria es de 2 mm / Ректифицированную плитку следует укладывать с минимальным швом 2 мм

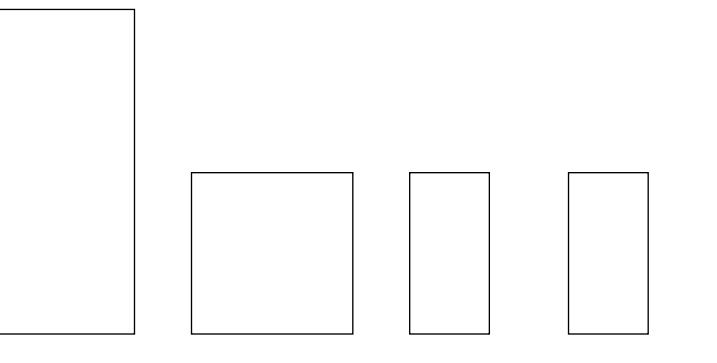

Si raccomanda di posare i materiali sfalsati di 20 cm al massimo, mai a metà della loro lunghezza.
It is strongly recommended to install the materials in a staggered pattern of a maximum of 20 cm, never at half way its length.

 Resistenza al gelo - Résistance au gel Frostbeständigkeit - Frost resistance Resistencia al hielo - Морозустойчивость	ISO 10545-12	Metodo di prova disponibile - Méthode d'assai disponible Prüfverfahren verfügbar - Test method available Método disponible - Используемый метод испытания	Conforme - Conforme Gemäß - According to Conforme - Соответствует	
 Determinazione della resistenza chimica - Résistance chimique Chemikalienbeständigkeit - Chemical resistance Resistencia a los productos químicos - Химическая стойкость	ISO 10545-13	B min.	A LA HA	
 Determinazione della resistenza alle macchie - Résistance aux taches Beständigkeit gegen Fleckenbel - Resistance to staining Resistencia a las manchas - Устойчивость эмали к загрязнению	ISO 10545-14	Classe 3 minimo - Catégorie 3 min Klasse 3 min - Class 3 min Clase 3 min - Минимум 3 класс	Conforme - Conforme Gemäß - According to Conforme - Соответствует	
 Reazione al fuoco - Reaction to fire Réaction au feu - Brennverhalten Reacción al fuego - Огнестойкость	-	Classe A1 o A1 fl - Class A1 o A1 fl Class A1 ou A1 fl - Klasse A1 oder A1 fl Clase A1 o A1 fl - Минимум A1 - A1 fl	Conforme - Conforme Gemäß - According to Conforme - Соответствует	
 Resistenza allo scivolamento - Résistance au glissement Bestimmung der Rutschschwierigkeit - Slip resistance Antideslizamiento - Сопротивление скольжению	EN 16165 (Previously DIN 51130)	Classificazione R - Evaluación R Klassifizierung R - Classification R Classification R - Классификация R	R10 R11	
 Resistenza allo scivolamento - superfici bagnate calpestio a piedi scalzi Résistance au glissement - surfaces mouillées passage à pieds nus Bestimmung der Rutschschwierigkeit-nasse Oberfläche-Barfuß gehen - Coefficient of friction-dry surfaces walking on barefoot Resistencia al deslizamiento-superficie mojada pasaje con pies descalzos - Сопротивление скольжению. Влажные полы, по которым ходят босыми ногами	EN 16165 (Previously DIN 51097)	Classificazione A,B,C - Evaluación A,B,C Klassifizierung A,B,C - Classification A,B,C Classification A,B,C - Классификация A,B,C	A+B A+B+C	
 Resistenza allo scivolamento - coefficiente di attrito dinamico (DCOF) Résistance au glissement - resistance de frottement dynamique Bestimmung der Rutschschwierigkeit-dynamischerreibungskoeffizient - Slip resistance - dynamic friction coefficient Resistencia al deslizamiento - coeficiente de rozamiento dinámico - Сопротивление скольжению. Коэффициент трения	ANSI A 326.3	$\geq 0,42$ wet	Conforme - Conforme Gemäß - According to Conforme - Соответствует	

GRADO DI VARIAZIONE CROMATICA Ogni prodotto si caratterizza per un grado di stonalizzazione variabile da prodotto a prodotto, da colore a colore. Per stonalizzazione s'intende variazione di gradazione cromatica da piastrella a piastrella.
 COLOUR SHADE VARIATION Every product is characterised by colour-shading that can vary from one product to another and from one colour to another. When referring to colour-shading we refer to the chromatic variation of the tile surface.

quarzite bianca Prodotto con leggera variazione cromatica
ardesia nera Product with a slight chromatic variation
lugnez V2

beola V3
Prodotto con marcata variazione cromatica
Product with a marked chromatic variation

I dati e le informazioni riportate nel presente catalogo sono aggiornate al momento della stampa e potrebbero subire successive correzioni e/o modifiche. Verificare sempre l'ultima edizione disponibile confrontando la data riportata nell'ultima pagina della versione cartacea, con quella indicata nel pdf del catalogo scaricabile dal sito www.supergres.com

I colori e le caratteristiche estetiche dei prodotti sono indicativi e si avvicinano quanto più possibile a quelli reali nei limiti consentiti dai processi di stampa.

Data and information reported in this catalogue are updated at the moment of catalogue printing therefore they may be subject to subsequent corrections and/or amendments. Always check the latest available issue and compare the date reported on the last page of the hard-paper copy of the catalogue with that stated in the pdf. format downloadable on website www.supergres.com

The colours and aesthetic features of products are indicative and reproduce, as close as possible, the real colours and features taking into consideration the restrictions of printing processes.
